REASONS FOR ALLOWANCE

1.   Claims 1, 2, 4-10, 18, 20-24, and 27 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, prior art does not disclose or fairly suggest a method for acquiring a three dimensional image data set of a moving organ including the step of controlling movement of an X-ray device and acquisition of projection data sets by the X-ray device by means of a motion signal such that a projection data set during the low-motion phase of the organ required for formation of the three-dimensional image data set is acquired when the X-ray device is in each X-ray position, said step of controlling the movement of the X-ray device comprising the step of controlling a start of each of the X-ray cycles based on the motion signal to cause the forthcoming X-ray cycle to commence from the initial X-ray position at a different instant in the different phases of motion of the organ than any preceding X-ray cycles, in combination with all the limitations in the claim. Claims 2, 4-10, 22-24, and 27 are allowed by virtue of their dependency.

Regarding claim 18, prior art does not disclose or fairly suggest a method for acquiring a three-dimensional image data set of a moving organ including the step of maintaining an x-ray device in an x-ray position when a low-motion phase is not present and continuously determining whether the low motion phase is present until a positive determination is obtained and thereafter acquiring a projection data set and continuing movement of the x-ray device, in combination with all the limitations in the claim. Claims 20 and 21 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
